## HOME EDUCATION DAY PACKET

### 4/11/24 - Day 1 Montgomery - Archives, Capitol, Legislative 101

The events on this first day is ALL FREE, but I do need you to fill out the Google form so I know to expect you. The legislative 101 and MOOseum are an either or. They are at the same time to offer options. You do not have to sign up for everything. I will be including a welcome packet on this trip of area FREE places to see, murals, and info all of the monuments on the Capitol Grounds. We will have a picnic lunch on the Capitol Grounds, or you can run and get food near by!

### 10am - Alabama Archives - guided tour

*The Alabama Department of Archives and History is the official repository of archival records for the U.S. state of Alabama. Under the direction of Thomas M. Owen its founder, the agency received state funding by an act of the Alabama Legislature on February 27, 1901*

2:30 Legislative 101 - Class at State House

***You will learn how the AL state legislature works, how a bill becomes a law, and tips on how to lobby your legislators. This is a great step by step introduction to the Alabama Legislative process, to how to you our legislative website ALISON, and how to effectively lobby for issues that concern you!***

*The Legislative 101 will be hosted by a partisan group (Eagle Forum), but I am offering an alternative for that time slot, and have let them know I want them to stick to JUST the basics, no side trips.*

#### **11:30am - W. A. Gayle Planet - Movie - cost \$6.50/\$7**

*The Super Mediaglobe II was installed in February of 2014 and is the world's first full-color single-lens digital planetarium. It projects simulations of the latest information gathered about our universe and presents it with leading-edge digital dome technology. Its 3-D digital planetarium functions simulate not just the earth and sky, but can take audiences to the edge of the known universe. In addition to the simulations of stars, constellations, and planets, SUPER MEDIAGLOBE II projects natural sky phenomenon including lightning, clouds, rain, snow and aurora that can be superimposed on the background sky or an all-sky image or movie. This remarkable ability creates more natural and realistic scenes to immerse and inspire families and students.*
